

Year 6 Numeracy Project

The maths department here at Goodwin Academy would like you to create a revision resource for the following topics:

- Four Operations- add, subtract, divide and multiply. (You can include integers, decimals and negatives)
- Types of Numbers- factors, multiples, primes, squares and cubes.
- Fractions- adding, subtracting, dividing and multiplying.
- Area and Perimeter.
- Angle Facts
- 2D Shapes and their properties.

What you produce is entirely up to you. You can be as creative OR informative as you like.

Some examples may include:

- Poster
- Booklet
- Game
- Flash Cards
- Worksheets (with worked answers)

How you complete this, is your decision.

Take it as an opportunity to revisit the topics you already know; as a reminder of the things you may have forgotten and a chance to teach yourself something new.

Good Luck Year 6!
