

## Catch up funding - Goodwin Academy

Schools should use this funding for specific activities to support their pupils to catch up for lost teaching over the previous months, in line with the guidance on <u>curriculum</u> <u>expectations for the next academic year.</u>

Schools have the flexibility to spend their funding in the best way for their cohort and circumstances.

To support schools to make the best use of this funding, the Education Endowment Foundation (EEF) has published a coronavirus (COVID-19) support guide for schools with evidence-based approaches to catch up for all students. Schools should use this document to help them direct their additional funding in the most effective way. This could include, for example:

- small group or one-to-one tuition (particularly through the National Tutoring Programme)
- summer programmes to help re-engage pupils or extra teaching capacity from September

To support schools to implement their catch-up plans effectively, <u>EEF has published the school planning guide</u>: 2020 to 2021. This will provide further guidance on how schools should implement catch-up strategies when they return in September 2020 and supporting case studies to highlight effective practice.

## Accountability and monitoring

As with all government funding, school leaders must be able to account for how this money is being used to achieve our central goal of schools getting back on track and teaching a normal curriculum as quickly as possible.

Given their role in ensuring schools spend funding appropriately and in holding schools to account for educational performance, governors and trustees should scrutinise schools' approaches to catch-up from September 2020, including their plans for and use of catch-up funding. This should include consideration of whether schools are spending this funding in line with their catch-up priorities, and ensuring appropriate transparency for parents.
