

Online Digital Timetable – Closure Schedule 15th June 2020

Timetables below outline when students should be expected to complete their remote learning tasks. The sessions highlighted in yellow will be their “Live Learning” sessions. Class teachers will invite students to participate in live lessons via the Microsoft Teams application. Lesson invites will be sent to student emails. Student and parent guides have been shared and are available from the Academy website. Lessons in red are designed to encourage reading for fun and physical exercise, both of which may support student mental wellbeing.

Year 7-9 Expectations:

- One Live Learning experience per fortnight
- One Video tutorial per fortnight
- One group feedback per fortnight

For Year 9-12, their timetable has been split to reflect their option blocks. These option blocks relate to the class codes that show on the student timetables. For example, if the class code starts 9A then the subject belongs to block A, if the class code starts 9B then the subject is in block B, etc. This code is only required for the student option subjects not their core lessons.
